EXPERIENCE

HackerEarth

July 2024 – Present

Senior Technical Engineer

Bengaluru, India

- Lead platform development and **reduced critical incident resolution time by 40%** through automated deployment testing, monitoring scripts, and rapid on-call support with 95% SLA adherence
- Architect internal tools, improving cross-functional team productivity by 30% across Content, Engineering, and Support
- Drive customer success by resolving complex production issues involving Django, AWS Athena optimization, database queries, and security vulnerabilities (OAuth, session management, access control)
- Manage end-to-end deployment lifecycle including testing, validation, rollback strategies, and contributed to auto-audit codebase enhancements for quality assurance automation

HackerEarth

Aug. 2023 – July 2025

Technical Content Engineer

Bengaluru, India

- Created **2,700+ technical assessments** (500+ Full Stack, 2000+ MCQs, 150+ SQL/Selenium/DevOps) serving Fortune 500 clients including Razorpay, Flipkart, Deloitte, and Meesho
- **Pioneered UI element testing in Full Stack Question Type**, enabling product deprecation of Frontend QT
- Built **GenAI Prompt Playbook** establishing scalable content generation workflows; developed MCQ Generator **reducing creation time by 60%** through automated question summaries
- Delivered high-impact custom projects: **Razorpay's Gitter VCS** (Java/Python/Go), Deloitte's banking application, Flipkart's Spring Boot task management, Amarth's Golang code quality system
- Introduced **8+ technology stacks** (Go/Golang, Appium, Cucumber, JMeter, Terraform, Cypress) expanding platform capabilities by 35%; enhanced Angular integration and Android local development

PROJECTS

Gitter Version Control System

- Implemented lightweight Git clone in **Java, Python, and Go** with complete VCS functionality including branching, merging, commit history, file staging, and SHA-1 hashing for version tracking

Microservices Blog Application

- Architected Spring Boot project with **service-oriented architecture** featuring independent blog-service, comment-service, and reaction-service with separate databases and RESTful API communication

EDUCATION

K L E F

Aug. 2018 – May 2022

Bachelor of Technology in Computer Science | **CGPA: 9.12/10.0**

Andhra Pradesh, India

- **Certifications:** AWS Solutions Architect Associate, Aviatrix Multi-cloud Network Associate, Oracle Cloud Infrastructure Architect
